

Cutting Material

DP

Number of Teeth

Z 2

Feed

MAN

Design:

- Tool body in light alloy
- Cutting elements fitted with DP (DIA)
- Joint cutter with replaceable DP cutters
- Drawing cut
- Resharpenable two to three times

Application:

- For jointing of the narrow side of panel materials

Workpiece Material:

- Panel materials

Machine:

- Spindle moulders

Scope of Supply:

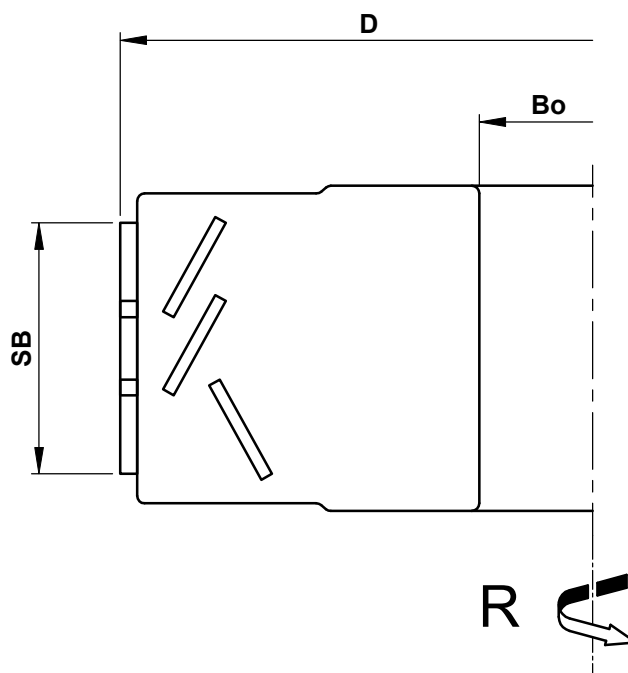

- Tool body incl. DP cutters
- Key with handle Torx T25

Special Features:

- Constant diameter with change of elements with the same height of cutting edges
- Because of the high precision of repetition at knife change, it can be executed also at home
- For increase of tool life the elements of knives can also be exchanged singularly each other
- Cutter elements can be sharpened not only without the tool body but also in the tool body

Additional Information:

- A torque wrench is recommended when changing the cutters (see C986-D315)
