

Design:

- Precision design with a high level of run-out accuracy, finely balanced
- Hardened clamping jaws with special protection against the ingress of chips and dirt
- Very high holding torque and rotation direction independent clamping security
- Can be used for right- and left-hand running

Application:

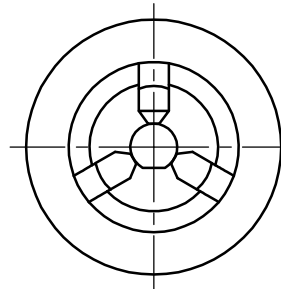

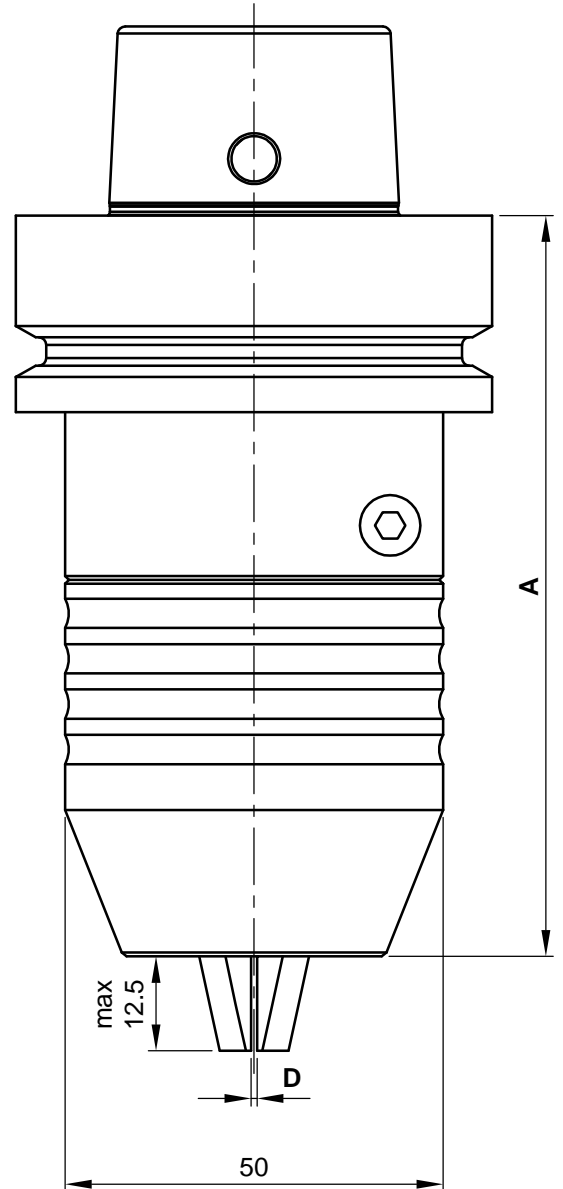

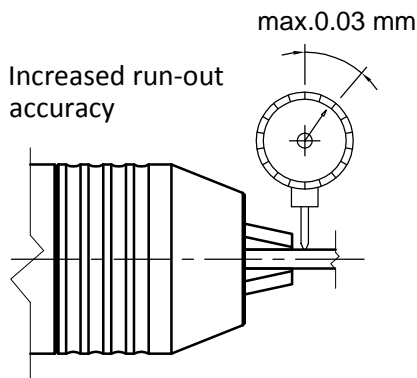

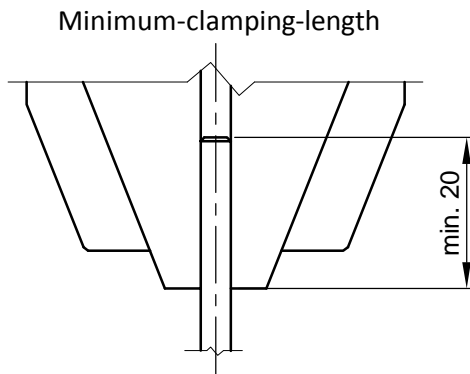

- For the secure clamping of drill shanks
- Steplessly adjustable clamping range of 1-16 mm
- Drill chuck can also be used for light milling work

Machine:

- CNC machining centres

Scope of Supply:

- Including chuck key SW4

Shanks with clamping surfaces
Observe the position in accordance with the drawing

The clamping surface must lie between the clamping jaws
